

Invacare® | **Kirilos and Atlante**

Invacare **Kirilos** - electrical version

Invacare **Atlante** - manual version

**Compact and easy to maneuver - the best choice for homecare**

.....  
Compact in size and offering maximum maneuverability, these mobile lifters provide the ideal solution for the homecare environment. Carers will appreciate the easy handling and smooth operating functions of the **Atlante** and **Kirilos** models.

The **Atlante** lift comes in both an electric and hydraulic version; **Kirilos** is purely electric. Both models come equipped with a handle for easy leg opening.

**Yes, you can.®**

**Features and Options**

**Easy handling**

The **Atlante** and **Kirilos** lifters are designed to make life easier for carers when handling patients. The lightweight, compact nature of the lifters makes them easy to maneuver even when space is limited. The spreader bar rotates 360 degrees, providing maximum handling opportunities for the carer. In addition the lifters can be dismantled for easy transportation and storage.

**High safety**

The control box of the **Kirilos** and the electric version of **Atlante** are equipped with emergency lowering and emergency stop. The battery status is displayed visually and an acoustic signal indicates a low battery.

**Spreader bar**  
Spreader bar rotates 360 degree for easy positioning of the patient.

**For easy leg opening**  
Equipped with a handle for comfortable leg opening.

**Universal standard sling, size M**  
The lifter comes with a universal, comfortable net sling. Additional slings are available with or without head support and with or without commode opening.

**Technical data**
